

Jackson County Vector Control District

555 Mosquito Lane, Central Point, Oregon 97502

Telephone 541-826-2199

Fax 541-826-8553

JOB TITLES: MOSQUITO CONTROL TECHNICIAN and LABORATORY TECHNICIAN

SALARY: \$18.72 - 23.48 per hour

OPENING DATE: March 12, 2024

CLOSING DATE: Open until filled

DURATION: SEASONAL (April – September)

HOURS: 6:30am – 4:30pm Monday - Thursday

All applicants who meet the qualifications must submit an official District application. Resumes alone will not be accepted but may be included with application. To obtain an application and apply online, please visit our website <https://jcvcd.org/about/job-opportunities/> and carefully follow the instructions found there.

Jackson County Vector Control District (JCVCD) is seeking self-motivated individuals for several **temporary** positions (approximately April through September): Mosquito Control Technician and Laboratory Technician. Successful applicants will be working to protect Jackson County residents from nuisance mosquitoes and arboviruses. For students majoring in Biology, Entomology, Agriculture, or similar applied science, these positions are excellent resume builders and offer an opportunity to gain experience in vector ecology, mosquito and tick biology, entomological sampling techniques, insect identification, and molecular diagnostics.

Mosquito Control Technician (Multiple Vacancies)

- Under direction of the Vector Control Technician and District Manager, surveys for and monitors a variety of mosquito sources and habitats such as irrigated pastures, ditches, marshes, riparian areas, sumps, water troughs, artificial containers etc. within an assigned zone.
- Performs work outdoors, sometimes in steep, rugged terrain; works in all weather conditions, including high temperatures.
- Correctly identifies stages of mosquito development and treats the area as needed with the appropriate mosquito control product in accordance with Integrated Pest Management (IPM) principles.

Jackson County Vector Control District

555 Mosquito Lane, Central Point, Oregon 97502

Telephone 541-826-2199

Fax 541-826-8553

- Operates and maintains a variety of specialized equipment and reports equipment deficiencies to supervisor.
- Keeps accurate records of mosquito control product applications and inventories.
- Utilizes a variety of mosquito traps.
- Operates a District vehicle and keeps the assigned vehicle clean and in good working order.
- Responds to public mosquito service requests.
- Acts in a professional and courteous manner at all times, particularly when interacting with the public.

Laboratory Technician (One Vacancy)

- Under direction of the Vector Ecologist, performs a variety of duties related to the District's mosquito and arbovirus surveillance programs.
- Sets, collects, and maintains multiple mosquito trap types including EVS traps, BG-Sentinel traps, gravid traps, and oviposition traps.
- Performs work both in the laboratory and field; fieldwork is conducted in all weather conditions, including high temperatures, and sometimes in steep, rugged terrain.
- Utilizes microscopes and dichotomous keys to correctly identify mosquito species.
- Counts and sorts mosquitoes into pools for disease testing.
- Assists with Polymerase Chain Reaction (PCR) testing.
- Assists with field and laboratory studies of mosquitoes as required.
- Helps maintain laboratory mosquito colonies.
- Collects, organizes, and maintains accurate field data using MS Excel and specialized vector control software.
