## 2023 Free Tire collection requirements:

- Each Jackson County residence may bring up to 15 rimless regular car or truck tires 34 inches or less to the drop-off site
- Proof of Jackson County residency required
- No charge for the tires

Piles of waste tires are not only unsightly but they can also be a source of mosquitoes when they become filled with water. By giving Jackson County residents a way to remove tires from their properties **free of charge**, our tire recycle drive helps clean up our community while reducing mosquito breeding sources at the same time!
